

Mobile App

Quick Start Guide **(iOS & Android)**

TRX App Quick Start Guide.

Welcome to the Magellan TRX Nation!

This Quick Start Guide to the TRX Mobile App briefly describes how to:

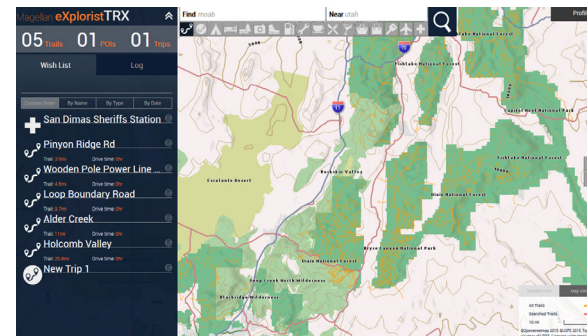

- **Create your TRX Account**
- **Track and record your adventures**
- **Add Waypoints to Tracks**
- **Search for Trails**
- **Use your Journal (Log and Wish List)**
- **Publish Tracks on TRX Web**

Note: For the best experience while getting started, make sure you have a Wi-Fi signal or good cellular data connection, and that Location Services is ON before setting up your TRX App. Your carrier's rates apply to your data usage with this app.

You can also synchronize your TRX App with:

Magellan eXplorist TRX7.

TRX Web.

Visit [Magellan Outdoor Navigation](#) for more information about TRX products as well as Magellan's complete line of outdoor navigation products.

Create Your **TRX** Account.

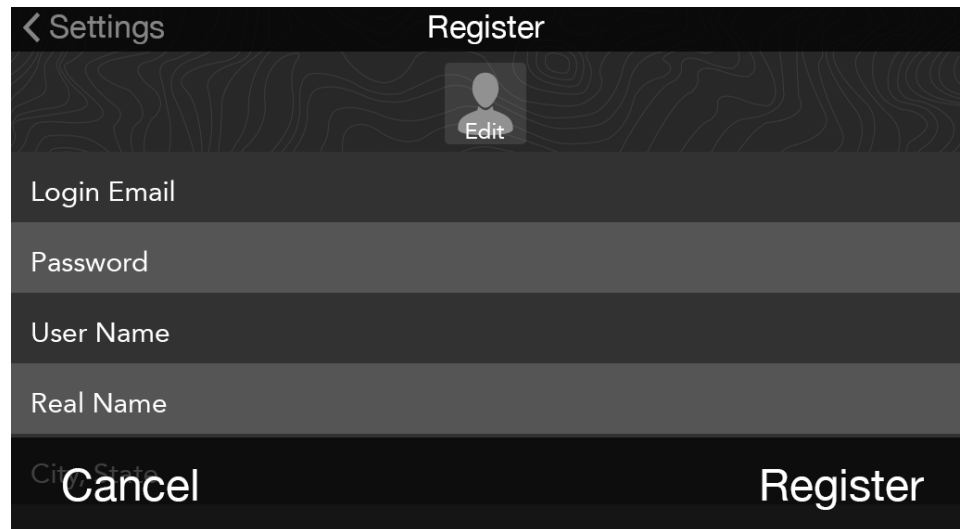

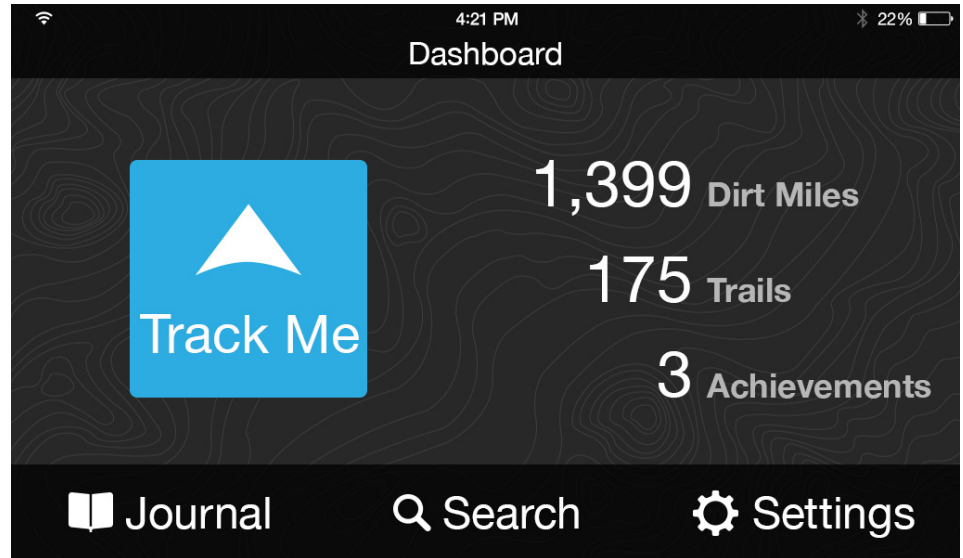

1. Tap **Settings** from the TRX Dashboard.
2. Tap **Account Profile**.
3. Tap **Register New Account**.

4. Enter account details.
5. Tap **Register** to confirm your account.
6. Tap **Ok** to complete registration.

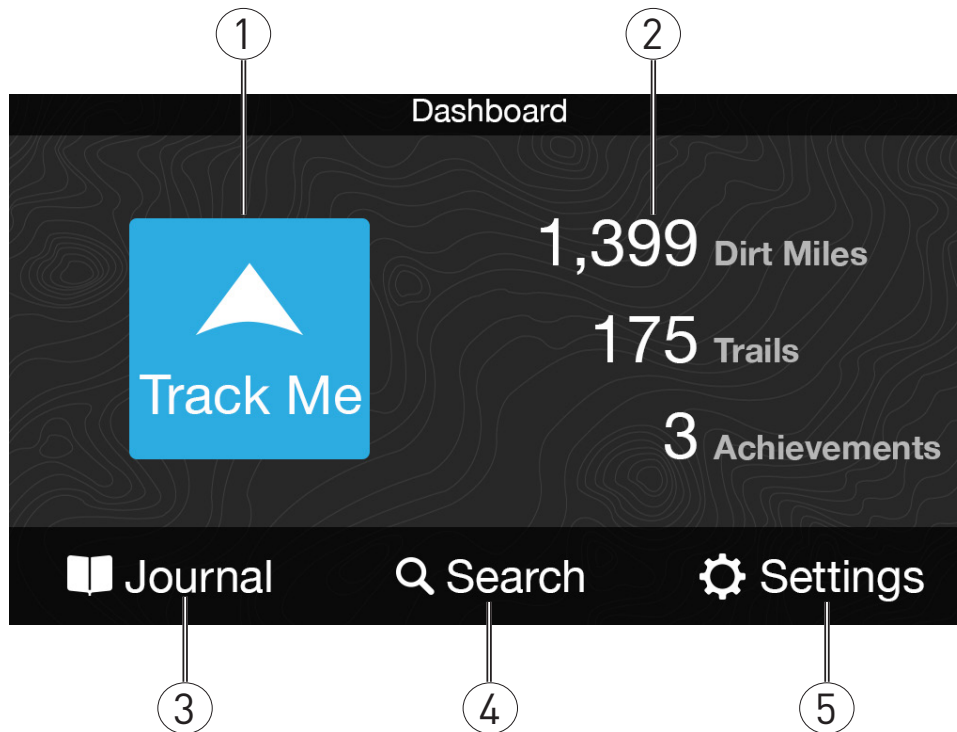

TRX Tip: Tap **Sign Out** on your Account Profile page to log out of your TRX account at any time.

TRX Tip: Log in to [TRX Web](#) with the account you create on the TRX App.

App Overview: Dashboard & Map Screen.

- ① **Track Me** button: Tap to begin tracking your route right away.
- ② **Dirt Miles** traveled, **Trails** traveled, and **Achievements** earned are accumulated by the TRX App.
- ③ **Journal**: Contains Log of user tracks and Wish List of saved Trails.
- ④ **Search**: Search for trails, tracks, and POIs around you or in a specific area.
- ⑤ **Settings**: Edit your user account, vehicle profiles, and connectivity.

- ⑥ **Detail Waypoint**: Mark a Quick Waypoint or pause tracking to add a Detail Waypoint.
- ⑦ **Social Post**: Share your adventures with friends with an automatic Tweet.
- ⑧ **Start/Pause**: Tap to pause tracking or resume tracking.
- ⑨ **Backtrack**: Follow your active Track back to your starting point.
- ⑩ **Finish**: Save your Track with detailed terrain and rating information.

Tracking & Saving.

1. Tap  on the TRX Dashboard to start riding!
2. Tap  to stop tracking.
3. Enter the Terrain Spec details to create an User Difficulty Rating, then rate the overall experience on the Track.
4. Tap  to add the Track to your Log, or  to delete your track.

TRX Tips:

- Tap  to add a Quick Waypoint to your Track.
- Tap  to toggle between North Up and Course Up views and, when the map is not facing North, to snap your map view back to North Up.
- Tap  to re-center the map to your current location after panning around the map (and toggle 2D/3D map views with a TRX App premium subscription).

< Resume		Save			
Name: Track 6					
4WD		NO		Some	 Must
4LO		NO		Some	 Must
Dirt		Solid		Loose	 Rutted
Terrain	Mud	0-6 in	6-12 in	12+ in	avoidable unavoidable
Discard	Sand	Difficulty:	0-6 in	6-12 in	12+ in avoidable unavoidable Save

Pausing and Resuming Tracking.

1. Tap  to pause tracking.

2. Tap  to resume tracking.

While paused, you can:

Add a Detail Waypoint.

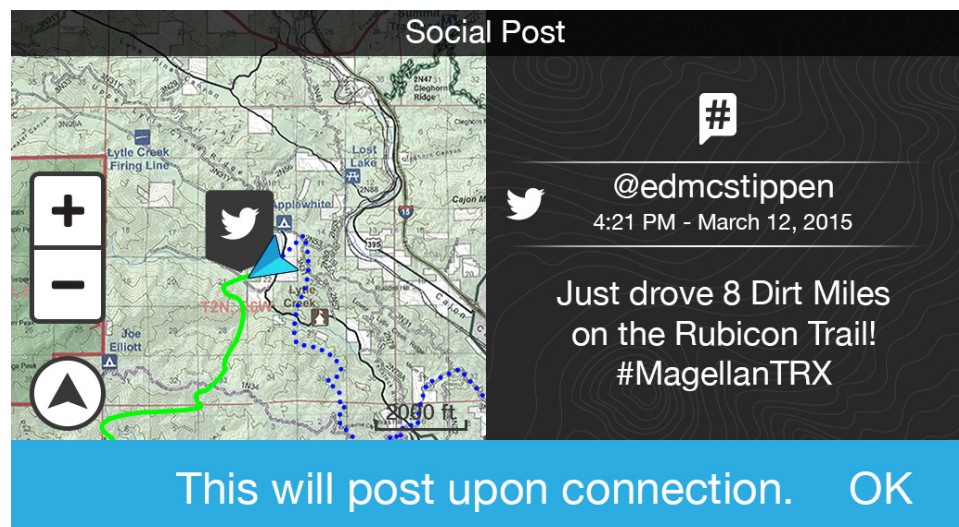

Follow prompts for each waypoint to add detail, then save the waypoint to your Track.

TRX Tip: Refer to **Detail Waypoints** for more information about these Waypoints.

Post a Tweet.

TRX Tip: This button automatically generates a Tweet indicating how many Dirt Miles you've driven with the hashtag #MagellanTRX.

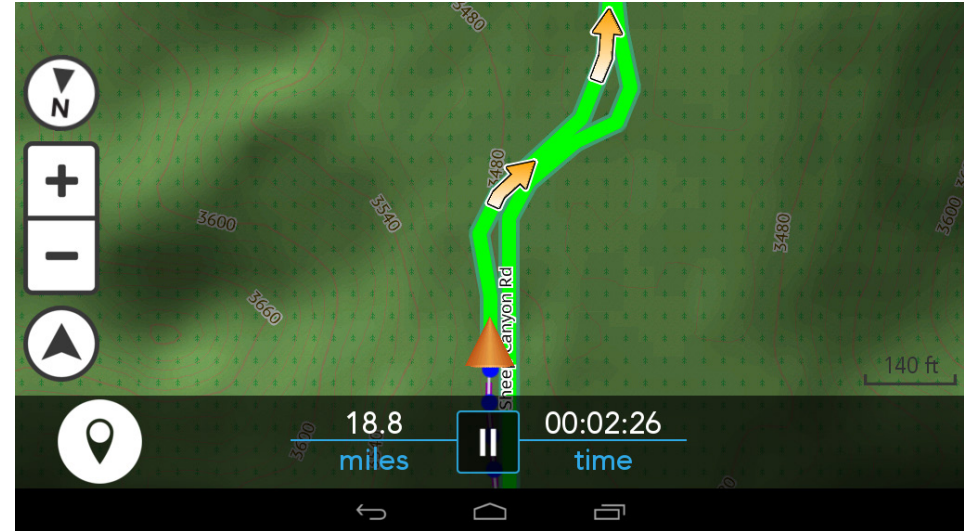

Backtracking.

Backtrack to the beginning of your Track.

TRX **Tip:** Use caution when backtracking. Route difficulty varies with direction of travel.

Finish and save your Track.

TRX **Tip:** All of your saved Tracks are stored in your Log. Refer to **Using your Journal** for more information about your Log and your Wish List.

Quick Waypoints.

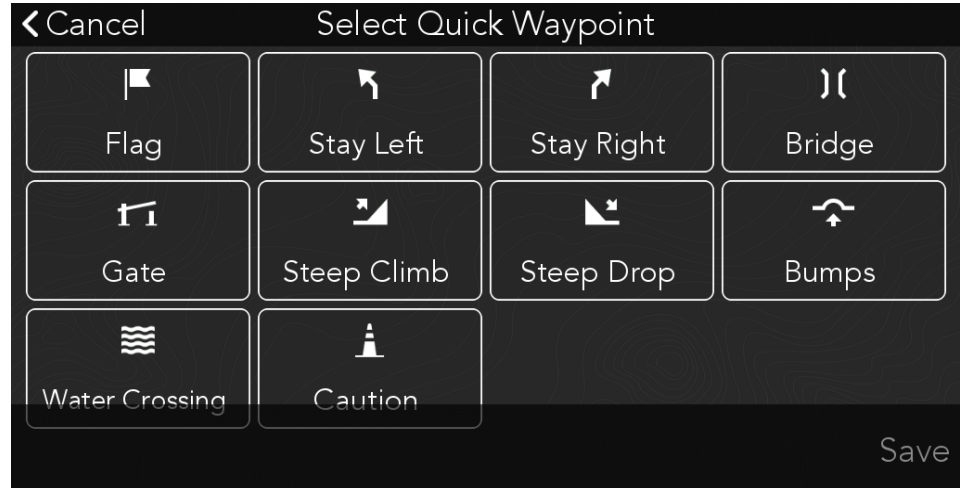

To add a Quick Waypoint:

1. Tap  while tracking or routing.
2. Select a waypoint type.
3. Tap **Save**.

TRX **Tip:** Many Quick Waypoint options are also available as Detail Waypoints. Refer to **Detail Waypoints** for more information.

TRX **Tip:** Edit Quick Waypoints later when you view your saved Tracks in your Journal or on TRX Web.

Detail Waypoints.

To select a Detail Waypoint type:

1. Tap  while tracking is paused.

2. Choose a Waypoint option:

Audio Waypoint: Record audio waypoint.

Current Location: Pick waypoint type and add detail.

Point on Map: Add waypoint anywhere on the map.

Coordinates: Define waypoint using latitude/longitude.

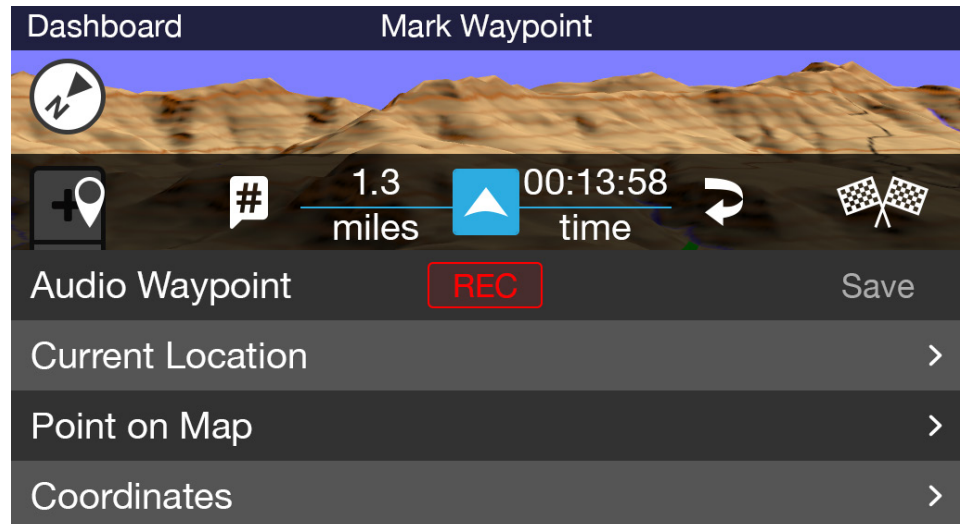

3. Follow the prompts to add waypoint detail.

To add a Current Location Waypoint:

1. Tap **Current Location**

2. Select a Waypoint type and sub-type (if applicable).

3. Tap **Next**.

Detail Waypoints.

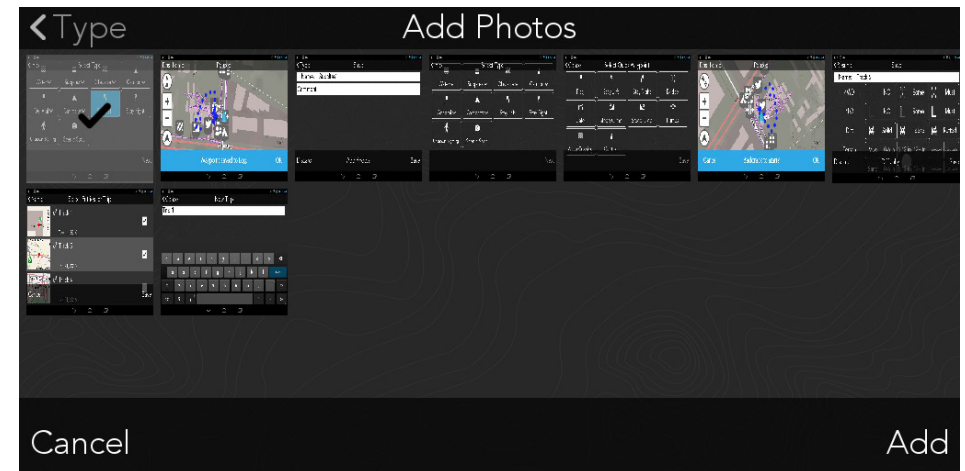

5. Enter a name and comment.

6. Tap **Save** to add the waypoint, or **Discard** to stop adding the waypoint.

TRX Tip: Tap **Add Photos** to add photos from the gallery on your device to a waypoint. Simply select a photo and tap **Add**.

A screenshot of a mobile application interface for editing a waypoint. At the top, there is a dark header bar with a back arrow and the word "Type" on the left, and the word "Save" on the right. Below the header, there are two white input fields. The first field is labeled "Name:" and contains the text "Supplies1". The second field is labeled "Comment" and is currently empty.

Searching.

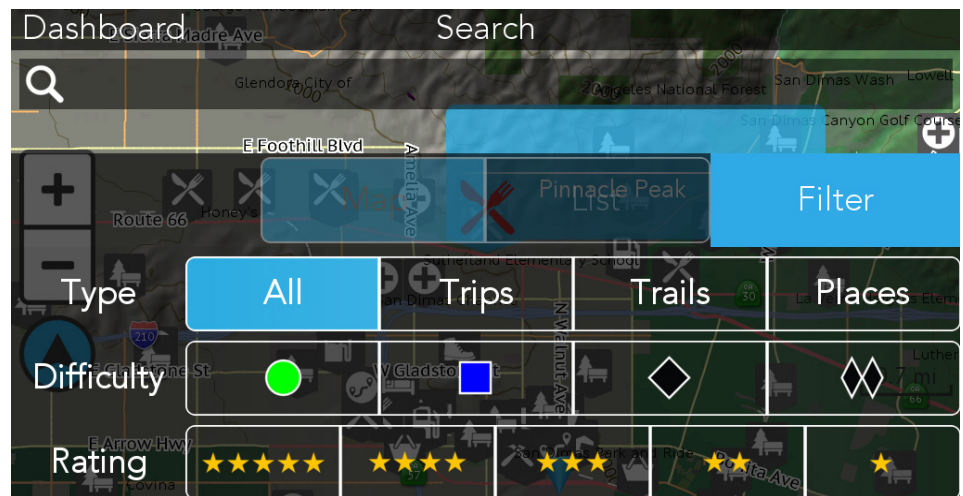

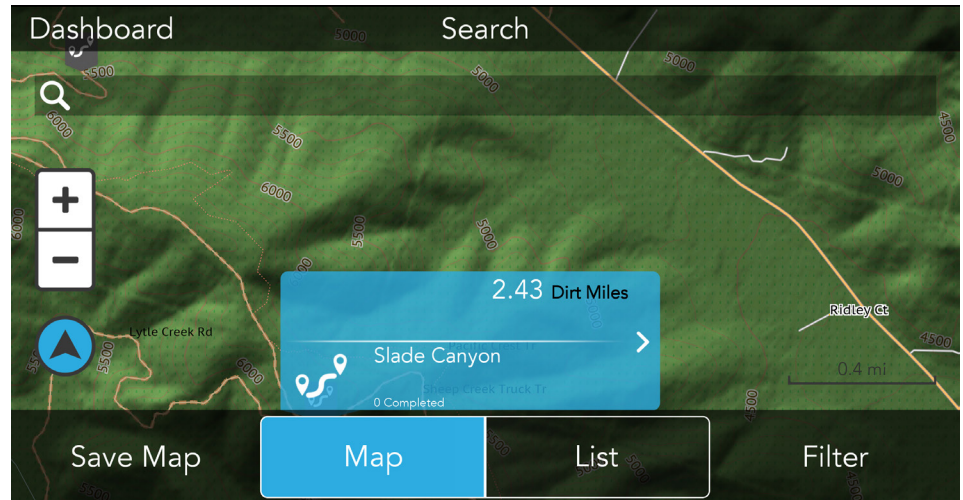

1. Tap **Q Search** from the TRX Dashboard.
2. Tap **Map** to view nearby Trails or POIs on the map, or **List** to see a list of nearby Trails and POIs.

TRX Tip: When you first enter **Q Search**, you'll only see the 50 Trails and POIs nearest to you. To specify or refine search results:

- Tap **Q** and type in the name of a city, trail, or POI that you want to locate. Try multiple searches in an area for more results.
- Tap **Filter** to refine results by Type, Difficulty, or Rating. Tap **Filter** again to refine your search results.
- Use TRX Web to view all TRX basemap Trails and expedite your search.

TRX Tip: If you're just looking for nearby Trails to ride, tap **Filter** > **Trails** to see the 50 Trails nearest to you.

TRX Tip: In List view, you can also sort your results by **Difficulty**, **Distance**, **Name**, and **Rating**.

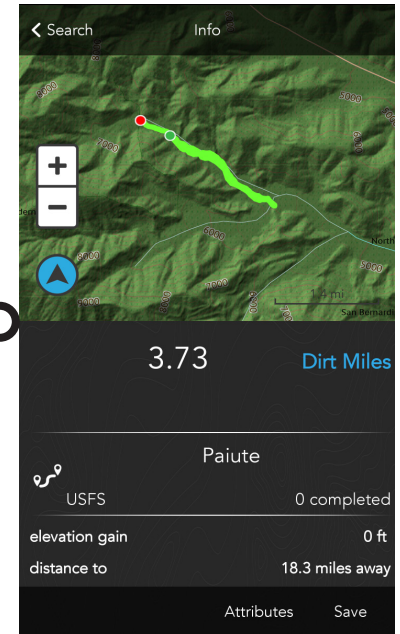

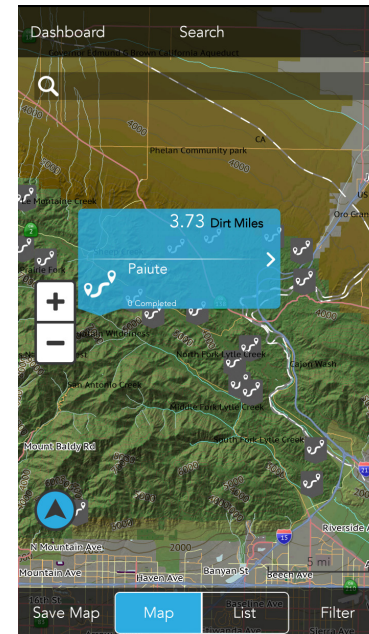

Viewing and Saving Searched Features.

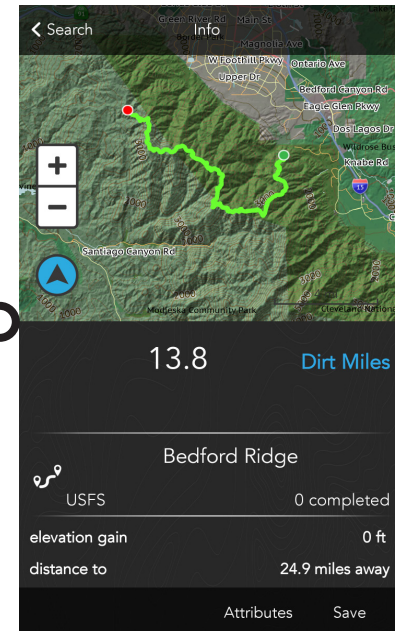

Map View

3. Tap a Marker Label for a Trail or POI on the map to view details about the item.
4. Tap **Save** to add the item to your Wish List.

List View

5. Tap a List item to view detail.
6. Tap **Save** to add the item to your Wish List.

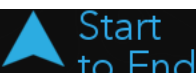

Using Your Journal.

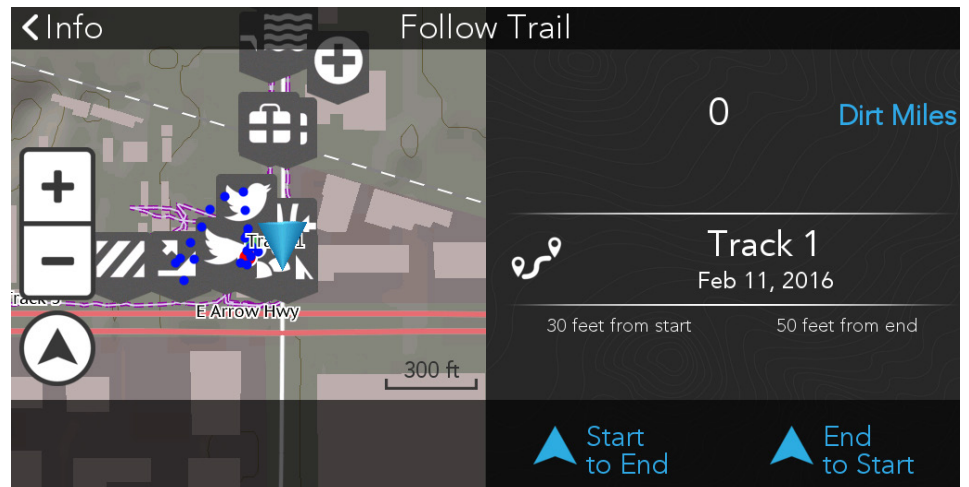

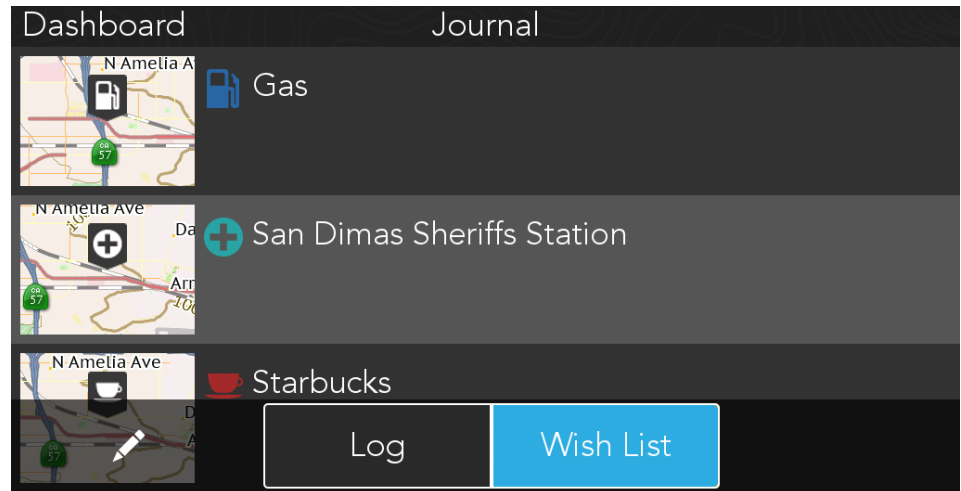

The TRX Journal contains your Wish-Listed Trails and POIs as well as the Log of your recorded Tracks and Waypoints.

To use your Journal:

1. Tap  **Journal** from the TRX Dashboard.
2. Tap  or  from the Journal.
3. Tap on an item from the List. You'll see basic details about the list item.
4. Tap  to see more detail about the item.

5. Tap , then select  or  to ride a Track or Trail.

TRX Tip: You'll receive audio guidance when you follow an official basemap Trail, but not when you follow an user-generated Track.

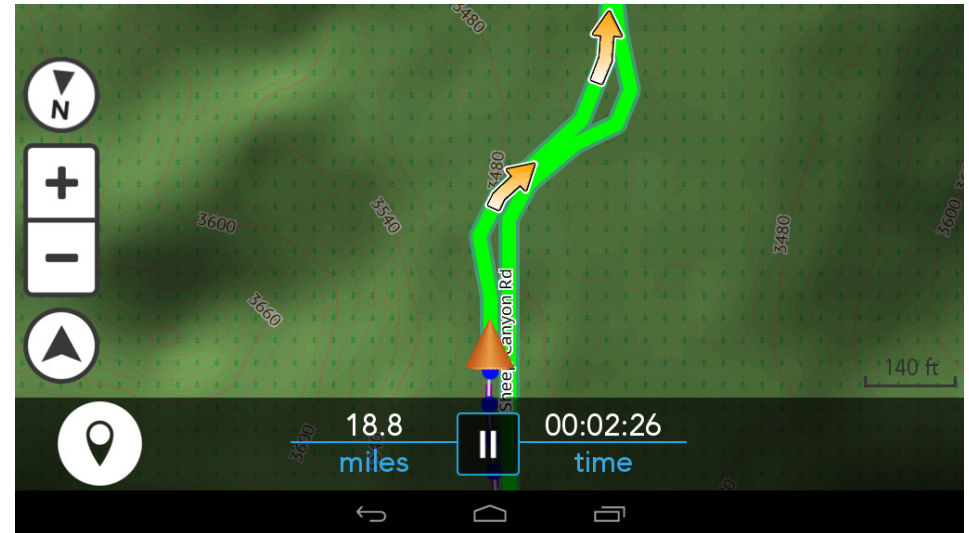

Using Your Journal.

6. Follow the arrows to ride along the Track or Trail.

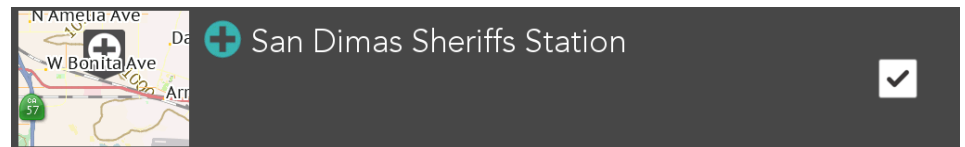

TRX Tips:

- If desired, the TRX App can also provides audible off-track alerts.
- When you ride Tracks you have previously ridden and waypointed, the waypoints will pop up as you ride.
- If you need to backtrack, pause tracking and tap  to backtrack to the beginning of your Track.

To delete items from your Journal:

1. Tap  from your **Wish List** or **Log**.
2. Tap the check box to the right of the item.
3. Tap .
4. Tap **OK** to delete the entry, or **Cancel** to stop the action.

Using Your Journal.

To create a new Trip from your own Tracks or from Trails saved to your Wish List:

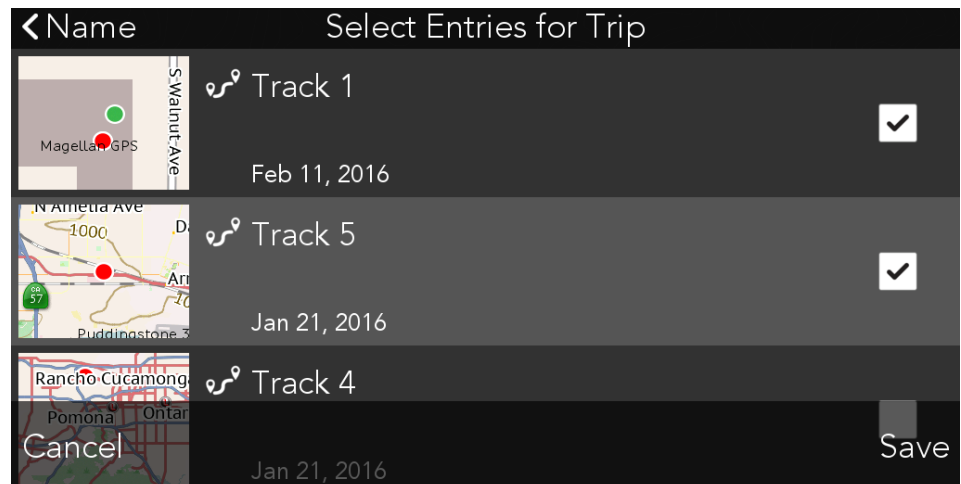

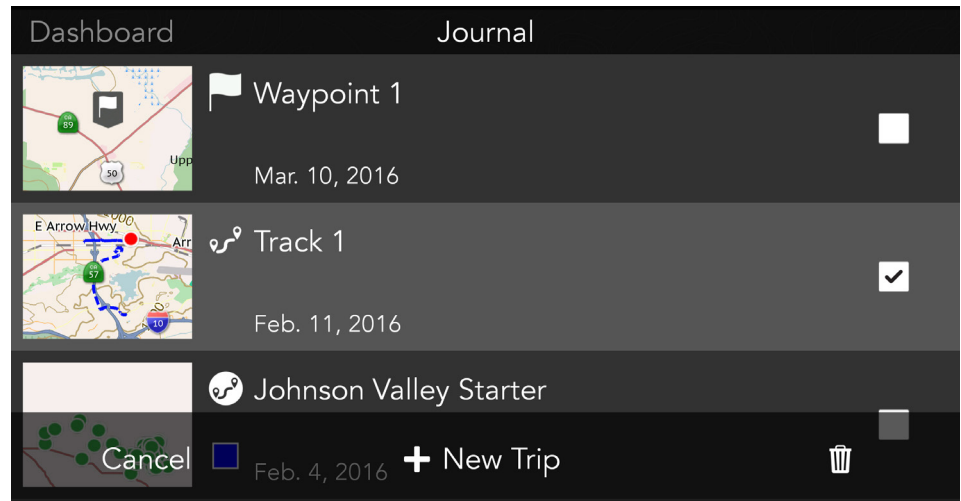

1. Tap  from the Log screen.

2. Tap .

3. Enter a name for the new Trip and tap .

4. Tap the check box to the right of each item you want to add to the Trip.

5. Tap  to add the new Trip to your Log.

Publishing Your Tracks on TRX Web.

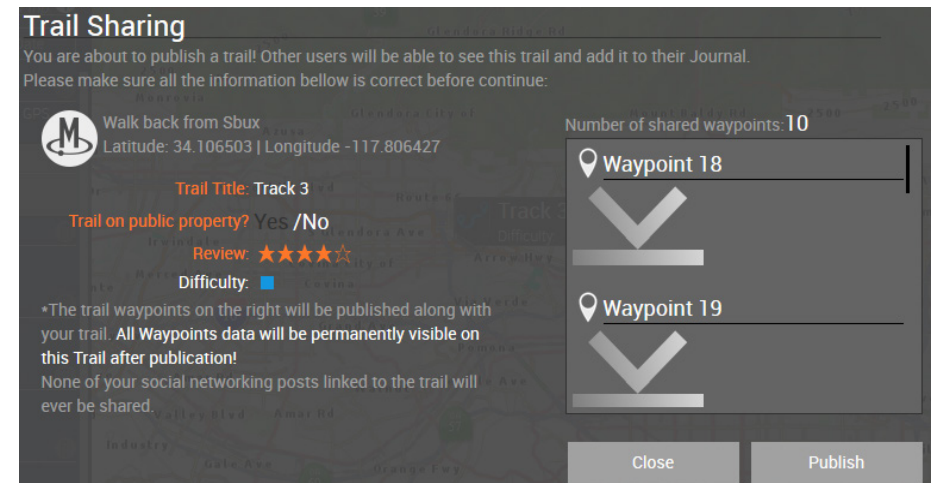

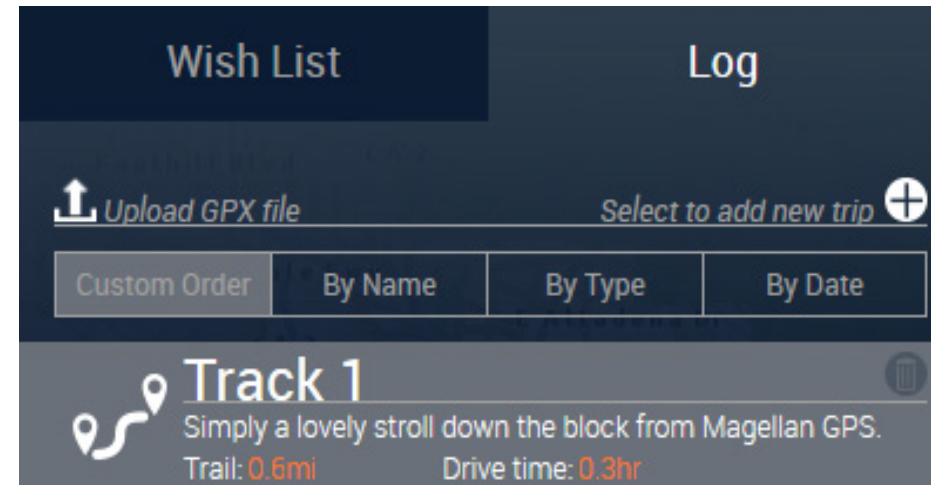

To publish your Track on TRX Web once you've saved a Track from your TRX App:

1. Go to [TRX Web](#).
2. Sign in with your account details.
3. Tap **Log** and select your Track from the list.

4. Tap **Publish** and review your Track details for accuracy.

5. Tap **Publish** again to publish the Track to TRX Nation, or **Close** to stop publishing the Track.

TRX Tip: You can also search for Trails, edit your Log and Wish List, upload GPX files, create Trips, and more on TRX Web. Refer to the [Magellan eXplorist TRX7 User Manual](#) for details about TRX Web.
